Black Font - Status Quo

# USAG Grafenwoehr Issue 1

**Issue: Administrative Furniture**

**Lead: DOL**

**Assist: Arriving Units, IMC-E, USAREUR**

**Discussion:** New construction, renovated and vacated facilities do not have required admin furniture for arriving units. (inclusive of new EB-G in Graf and Vilseck – motor pool benches/ work areas).

**Options:** 1) Identify requirements and purchase new  
2) Arriving units bring all serviceable furniture  
3) Relocate from closing/realigning Garrisons

**Recommendation:** Arriving units bring serviceable furniture; identify and relocate existing furniture from other Garrisons; purchase delta. This will be an issue through out the EB-G Program

# USAG Grafenwoehr Issue 2

**Issue: TEC Maintenance in Garrison**

**Lead: U'R G3 FMD Assist: U'R G4, 21<sup>st</sup> TSC, IMC-E, PAIO, DPW, DOL**

**Discussion:** BCT area maintenance facilities are designed for consolidated maintenance at the Bn level for AR, IN, FA & FSB units. TEC units coming in may still have Co level organizational (Field) maintenance.

**Options:**

**Recommendation:** Wait for TEC Design; insure everyone understands

# USAG Grafenwoehr Issue 3

**Issue: IMC Euro Stationing of COE/agencies to Grafenwoehr**

**Lead: IMC-Euro Plans, GR2**

**Assist: IMC-Euro SMO, PAI Graf**

**Discussion:** Our local BMC is indicating that there will be an increase of mechanics and missions caused by the closing of another BMC. Any increase for the Graf foot print needs properly planned and vetted with GR2 as we are managing facilities by the square foot for USAREUR Transformation. Increases of personnel and missions impact facilities and services.

**Options:**

**Recommendation:** Determine what IMC-Euro activities need relocated to support USAREUR end state. Determine where to station these activities and start the formal planning and approval process.
